\$360 CREATION SPACE: DRAW ME A CROC (3-5 year-olds)

Being able to draw recognizable animals is a big

confidence booster! Children will build self-assurance along with fine-motor and pencil-grip skills in this multi-faceted art class. Learning to master basic shapes, children compose recognizable creatures, exploring their self-expression and creativity as they build their portfolio. **Bernard Adnet** (creator of our Montclare Croc) 'draws' from decades of experience as an award-winning professional children's book illustrator and art teacher.

\$700 NORO ROBOTS & SCIENCE

(ages 3-5) Is your child inventive? Creative? A problem solver? If you answered yes to any of these characteristics, you have an

innovator on your hands, and it just so happens we have the class for you. Young innovators will use their strengths, as well as develop new skills, to program robots and build circuits and structures. We encourage children to ask "why" and will never answer "just because".
